Subject index

Acetylcholine,
central nervous system, insects, review 241
ACTH,
secretion, *in vitro*, chloroquine effects on 25
Adenylate cyclase,
activity, brain, diabetes insipidus 151
Adrenal gland,
insulin-like growth factor 1 receptors, cattle 725
regeneration, effects on blood pressure regulation 45
Adrenalin,
role in luteinizing hormone secretion 71
β-adrenergic receptors,
stimulation, pituicytes, *in vitro* 693
Adrenergic system,
effects on growth hormone secretion, man 472
α_2-adrenoceptors,
maturation, role of sex steroids, rats 523
Adrenocorticotrophin,
pyridostigmine effects on 429
cAMP,
activity, brain, diabetes insipidus 151
effects on vasopressin, cultured neurons 859
Angiotensin II,
effects on vasopressin, medulla oblongata, rabbits 867
localization, pituitary, rat 297
Angiotensinogen,
localization, pituitary, rat 297
Arachidonic acid,
metabolism, pituitary 439,445
Atrial natriuretic factor,
release into hypophysial blood 15
Atrial natriuretic peptide,
regulation of vasopressin release 903
secretion, diencephalon cells, *in vitro* 317

Behaviour,
sexual differentiation, ferrets 401
Benzodiazepines,
receptors, pituitary 189
receptors, role in prolactin release 745
Bioassays,
corticotrophin-releasing factor-41 897
Blood pressure,
regulation, adrenal regeneration effects on 45
relaxin effects on 53
Brain,
progestin receptors, sexual behaviour, male/female guinea-pigs 79
sexual differentiation, steroidal control, ferrets 401
Brattleboro rats,
cAMP/adenylate cyclase activity, brain 151
diabetes insipidus, ontogeny 223

Cardiovascular instability,
induction by i.c. vasopressin/corticotrophin-releasing factor 39
Castration,
effects on melatonin levels, pineal gland, male rat 777
Central nervous system,
insects, cholinergic nerve terminals, review 241
Cerebellum,
11β-dehydrogenase activity, rats 853
Cerebral ganglion,
Styela plicata, glucagon-related peptides 641
Cerebrospinal fluid,
cholecystokinin levels, regulation of food intake, rats 783,791
Cholecystokinin,
levels, cerebrospinal fluid, regulation of food intake, rats 783
levels, plasma/cerebrospinal fluid, regulation of food intake, lactation, rats 791
receptors, anteroventral third ventricle lesions effects on, rats 323
regulation of food intake, oestradiol effects on, rats 797
Chloroquine,
effects on ACTH secretion, *in vitro* 25
Corticosterone,
secretion, GABA-induced, rats 501
Corticotrophin-releasing factor,
inhibition of stress response, pituitary-adrenal axis 839
Corticotrophin-releasing factor-41,
immunoassay 889,897
secretion, hypothalamus, GABA effects on, rats 221
Corticotrophin-releasing hormone,
desensitization, pituitary cells 181
distribution, hypothalamus, man 369
i.c. administration, cardiovascular effects 39
large molecular weight fraction, bioactivity 95
levels, portal/peripheral plasma 65
role in oxytocin release, stress, rats 647
Cysteamine,
effects on thyrotrophin release, rats 485

Deconvolution,
neuroendocrinology 755
Dendrosomes,
preparation 103
Dexamethasone,
effects on glucocorticoid binding, lymphocytes, man 803
Diabetes insipidus,
Brattleboro rats, cAMP/adenylate cyclase activity, brain 151
Brattleboro rat, ontogeny 233
Diencephalon,
atrial natriuretic peptide secretion, *in vitro* 317
5α-dihydroprogesterone,
effects on oestrogen-induced prolactin release, dose–response, rats 341
Dopamine,
effects on pituitary gland, lactation, rats 807
effects on striatal neurons 825
neonatal prolactin exposure effects on 19
neurons, hypothalamus, monkey, mapping 169
release, median eminence, prolactin effects on 375
release, pituitary, inhibition by opioids, rats 335
role in stress response 733
Dopaminergic drugs,
effects on β-endorphin processing, pituitary, rats 531
Met-enkephalin,
stress response, source, rats 381
β-endorphin,
levels, oestrus cycle effects on, rats 291
processing, pituitary, dopaminergic drugs effects on, rats 531
pulsatile secretion, synchronization with luteinizing hormone release 91

Feeding behaviour,
prolactin effects on, doves 667
Follicle-stimulating hormone,
olfactory bulbs effects on, rats 717
Food,
intake, lactation, regulation, rats 791
intake, regulation, cholecystokinin levels, cerebrospinal fluid, rats 783

intake, regulation, cholecystokinin, oestradiol effects on, rats 797

G proteins,
pituitary, regulation by gonadotrophin-releasing hormone/thyrotrophin-releasing hormone, rats 593
GABA,
effects on corticotrophin-releasing factor 41 secretion, hypothalamus, rats 221
receptors, hypothalamus, regulation of growth hormone secretion, rats 351
regulation of corticosterone, rats 501
release, median eminence, prolactin effects on 375
Galanin,
coexistence with gonadotrophin-releasing hormone 107
effects on growth hormone secretion, chickens 285
interaction with serotonin, effects on prolactin secretion, rats 217
GAWK,
secretion, medullary thyroid carcinoma cell line 505
Genes,
oxytocin, expression, transgenic mice 917
oxytocin, regulation, oestradiol, rats 633
Glial cells,
culture, rat, glucocorticoid type II receptors 29
Glucagon,
related peptides, cerebral ganglion, *Styela plicata* 641
Glucocorticoids,
binding, lymphocytes, man 803
type II receptors, neuronal/glial cultures, rat 29
receptors, hippocampus, 5,7-dihydroxytryptamine effects on 911
Gonadotrophin,
levels, olfactory bulbs effects on, hamsters 707
Gonadotrophin-releasing hormone,
binding, pituitary, Booroola Merino sheep 601
binding, pituitary, temperature/protein kinase C effects on, rats 509
coexistence with galanin 107
levels, oestrus cycle effects on, rats 291
neurons, hypothalamus, mapping, monkeys 157
regulation of G protein, pituitary, rat 593
Growth hormone,
mRNA, ontogeny, rats 615
responses to growth hormone-releasing hormone, variability 87
secretion, adrenergic system effects on, man 473
secretion, galanin effects on, chickens 285
secretion, growth hormone-releasing hormone factor-induced, somatostatin effects on, rats 555
secretion, regulation, role of GABA receptors, hypothalamus, rats 351
stimulation, pyridostigmine 429
Growth hormone-releasing hormone,
growth hormone response, variability 87

Haemorrhage,
blood pressure response, adrenal regeneration effects on 45
Hippocampus,
glucocorticoid/mineralocorticoid receptors, 5,7-dihydroxytryptamine effects on 911
vasopressin release, rats 453
***Hippoglossoides elassodon*,**
urotensin I characterization 877
Histamine,
H_1-receptors, expression, *Xenopus* oocytes 547
11β-hydroxysteroid dehydrogenase,
activity, cerebellum, rats 853
5,7-Hydroxytryptamine,
effects on glucocorticoid/mineralocorticoid receptors, hippocampus 911
Hypothalamus,
control of pituitary, role of atrial natriuretic factor 15
corticotrophin-releasing factor/vasopressin distribution, man 369
corticotrophin-releasing factor 41 secretion, GABA effects on, rats 221
deafferentation, effects on pulsatile luteinizing hormone secretion 59
dopamine neurons, mapping, monkeys 169
GABA receptors, regulation of growth hormone secretion, rats 351
glutamic acid decarboxylase activity, regulation by sex steroids 433
gonadotrophin-releasing hormone neurons, mapping, monkeys 157
monoamine oxidase activity, relationship with reproductive status, rats 423
oestrogen receptors, mRNA regulation, oestradiol, rats 605
periventricular nucleus, lesions, effects on thyrotrophin release, rats 485
prostaglandin E_2/[^{3}H]prostaglandin E_2 binding, circadian/oestral variation, rat 193
vasopressin neurons, effects on flank marking behaviour 123
vasopressin neurons, mapping 113

Immunoassays,
corticotrophin-releasing factor-41 889, 897
Insects,
cholinergic nerve terminals, central nervous system, review 241
Insulin-like growth factor,
receptors, pituitary gland, infants, man 305
Insulin-like growth factor 1,
receptors, adrenal gland, cattle 725

Lactation,
rats, pituitary cells properties 807
cholecystokinin levels, cerebrospinal fluid, regulation of food intake, rats 791
Lactotrophs,
heterogeneity, 17β-oestradiol effects, rats 815
Luteinizing hormone,
gene expression, regulation, photoperiod/testosterone interaction, hamsters 567
olfactory bulbs effects on, rats 717
prolactin effects on, doves 667
pulsatile secretion, hypothalamic deafferentation effects on 59
pulsatile secretion, naloxone effects on, ferrets 701
pulsatile secretion, synchronization with β-endorphin release 91
secretion, regulation by κ-opioid receptors, pregnancy, rat 685
secretion, regulation by oxytocin, marmosets 419
secretion, regulation, role opioids/adrenalin 71
release, early gestation, rats 883
secretion, regulation, man 845
Luteinizing hormone-releasing hormone,
effects on prolactin release 145
norepinephrine effects, electrical/electrochemical stimulation 131
Lymphocytes,
glucocorticoid binding, man 803

Magnocellular neuroendocrine cells,
electrophysiology, rat 737
Maternal behaviour,
oxytocin effects on 539
Medial preoptic area,
oxytocin mRNA levels, lactation, rats 621
Medial septum,
neurons projecting to medial eminence, characterization 575
Medulla oblongata,
vasopressin release, angiotensin II effects on, rabbits 867
Melanin-concentrating hormone,
biosynthesis, fish 309
Melatonin,
effects on prolactin/progesterone secretion, pregnant/pseudopregnant mink 583
levels, pineal gland, castration effects on, male rat 777
receptors, activity, role of G proteins 773

Menstrual cycle,
luteinizing hormone secretion, regulation, man 845
N-methyl-DL-aspartate,
receptors, activation, role in puberty initiation, rats 627
Metyrapone,
effects on glucocorticoid binding, man 803
Mineralocorticoids,
receptors, hippocampus, 5,7-dihydroxytryptamine effects on 911
Monoamine oxidase,
activity, hypothalamus, relationship with reproductive status, rats 423

Naloxone,
effects on GABA-induced corticosterone secretion, rats 501
effects on luteinizing hormone release, ferrets 701
Neonates,
oestradiol exposure, effects on prolactin/dopamine 19
Neuroendocrine cells,
supraoptic nucleus, voltage-clamp recordings, rat 267
Neuroendocrinology,
deconvolution 755
Neurons,
cell culture, rat glucocorticoid type II receptors 29
cultured, vasopressin, cAMP effects on 839
striatum, dopamine/oestrogen effects on 825
vasopressin/oxytocin, supraoptic nucleus, inward rectification, guinea-pigs 261
vasopressin sensitive, hypothalamus, effects on flank-marking behaviour 123
vasopressin sensitive, hypothalamus, mapping 113
Neurotensin,
effects on preoptic neurons 141
Neurotransmitters,
sex differences, review 1
Norepinephrine,
effects on luteinizing hormone-releasing hormone, electrical/electrochemical stimulation 131
regulation of vasopressin release 363

Oestradiol,
effects on food intake regulation, rats 797
effects on progestin receptors/behaviour, sex differences, rats 467
regulation of oestrogen receptor mRNA, hypothalamus, rats 605
regulation of oxytocin gene, rats 633
17β-oestradiol,
effects on lactotrophs, rats 815
effects on prolactin release, lactotrophs, *in vitro* 277
Oestrogen,
binding, pituitary/uterus, progesterone effects on, rats 517
effects on prolactin release, pituitary 145
effects on striatal neurons 825
receptors, localization, vasopressin nuclei, brain, rats 209
receptors, mRNA, regulation by oestradiol, hypothalamus, rats 605
Oestrus cycle,
gonadotrophin-releasing hormone/substance P/β-endorphin levels, rats 291
prostaglandin E_2 binding, hypothalamus, variation, rats 193
Olfactory bulbs,
effects on gonadotrophin/prolactin levels, hamsters 707
effects on reproductive hormones, rats 717
Opiates,
effects on pituitary gland, lactation, rats 807
Opioids,
effects on pituitary hormone sites of action, rats 477
inhibition of dopamine release, pituitary, rats 335
regulation of prolactin secretion, rats 347
role in luteinizing hormone secretion 71
κ-opioids,
effects on supraoptic nucleus, *in vitro* 389
receptors, role luteinizing hormone release, pregnancy, rats 685
μ-opioids,
effects on prolactin release, lactating rats 271
Oxytocin,
effects on maternal behaviour 539
effects on supraoptic nucleus, rats 225
gene, expression, transgenic mice 917
gene, regulation, oestradiol, rats 633
mRNA, coexpression with vasopressin mRNA 257
mRNA, levels, medial preoptic area, lactation, rat 621
neurons, supraoptic nucleus inward rectification, guinea-pigs 261
regulation of luteinizing hormone, marmosets 419
release, stress, role of corticotrophin-releasing factor, rats 647

Pars intermedia,
secretory pathways, mouse 563
Phospholipids,
turnover, pituitary gland tumours, rats 833
Photoperiod,
interaction with testosterone, regulation of pituitary hormones, hamsters 567
Pineal gland,
electrical activity, control, sympathetic nervous system 493
melatonin levels, castration effects on, male rat 777
Pituicytes,
stimulation, β-adrenergic, *in vitro* 693
Pituitary,
angiotensin/angiotensin II localization, rats 297
arachidonic acid metabolism 439, 445
benzodiazepine receptors 189
cells, desensitization to corticotrophin-releasing hormone 181
control, hypothalamus, role atrial natriuretic factor 15
β-endorphin processing, dopaminergic drugs effects on, rats 531
gonadotrophin-releasing hormone binding, Booroola Merino sheep 603
gonadotrophin-releasing hormone binding, temperature/protein kinase C effects on, rats 509
hormone secretion, opioids effects on/central nervous system sites of action, rats 477
hormones, gene expression regulation, photoperiod/testosterone interaction, hamsters 567
insulin-like growth factor receptors, infants, man 305
oestrogen binding, inhibition by progesterone, rats 517
vasopressin mRNA, regulation, rats 329
Pituitary gland,
opiates/dopamine effects on, lactation, rats 807
tumours, prolactin release/phospholipid turnover, rats 833
Pituitary-adrenal axis,
response to stress, inhibition by corticotrophin-releasing factor, 839
Pregnancy,
luteinizing hormone release, rats 883
Preoptic neurons,
response to neurotensin 141
Progesterone,
effects on oestrogen-induced prolactin release, dose-response, rats 341
inhibition of oestrogen binding, pituitary/uterus, rats 517
secretion, pregnant/pseudopregnant mink, melatonin/brain lesions effects on 583
Progestin,
receptors, brain, sexual behaviour, male/female guinea-pigs 79
receptors, oestradiol effects on, sex differences, rats 467
Prolactin,
effects on dopamine/GABA release, median eminence 375
effects on feeding/luteinizing hormone/testes, doves 667
gene expression, regulation, photoperiod/testosterone interaction, hamsters 567
olfactory bulbs effects on, hamsters 707
olfactory bulbs effects on, rats 717
secretion, galanin/serotonin interaction, rats 217
secretion, lactotrophs, 17β-oestradiol effects on, *in vitro* 277
secretion, neonatal oestrogen exposure effects on 19

secretion, oestrogen-induced, progesterone/5α-dihydroprogesterone effects on, rats 341
secretion, μ-opioids effects on, lactating rats 271
secretion, pituitary, oestrogen/ectopic pituitary transplants effects on 145
secretion, pregnant/pseudopregnant mink, melatonin/brain lesion effects on 583
secretion, regulation by opioids, rats 347
secretion, role of benzodiazepine receptors 745
release, pituitary gland tumours, rats 833
Prostaglandin E_2,
binding, hypothalamus, circadian/oestral variation, rats 193
Protein kinase C,
effects on gonadotrophin-releasing hormone binding, pituitary, rats 509
Pyridostigmine,
effects on growth hormone/thyrotrophin/adrenocorticotrophin 429

Receptors,
benzodiazepines, role in prolactin release 745
cholecystokinin, anteroventral third ventricle lesions effects on, rats 323
GABA, hypothalamus, regulation of growth hormone secretion, rats 351
glucocorticoids/mineralocorticoids, hippocampus 5,7-hydroxytryptamine effects on 911
glucocorticoids, neuronal/glial cultures, rat 29
histamine H, expression, *Xenopus* oocytes 547
insulin-like growth factor, pituitary gland infants, man 305
insulin-like growth factor I, adrenal gland, cattle 725
melatonin, activity, role of G proteins 773
N-methyl-DL-aspartate, activation, role puberty initiation, rats 627
oestrogen, mRNA regulation by oestradiol, hypothalamus, rats 605
κ-opioids, regulation of luteinizing hormone release, pregnancy, rats 685
progestin, oestradiol effects on, sex differences, rats 467
vasotocin, brain, canary 653
Relaxin,
effects on blood pressure 53
Reproductive status,
relationship with monoamine oxidase activity, hypothalamus, rats 423
mRNA,
growth hormone, ontogeny, rats 613
oestrogen receptors, regulation, oestradiol, hypothalamus, rats 605
oxytocin, levels, medial preoptic area, lactation, rats 621
oxytocin/vasopressin, coexpression 257
vasopressin, regulation, pituitary, rats 329

Septum,
vasopressin release, rats 453
Serotonin,
interaction with galanin, effects on prolactin secretion, rats 217
Sex steroids,
effects on differentiation, ferrets 401
effects on supraoptic nucleus, rats 225
regulation of glutamic acid decarboxylase, hypothalamus 433
role in α_2-adrenoceptor maturation, rats 523
Sexual behaviour,
role of neurotransmitters, review 1
Signal transduction,
pituitary, rats 593
Somatostatin,
effects on growth hormone-releasing factor-induced growth hormone secretion, rats 555
Stress,
pituitary-adrenal axis response, inhibition by corticotrophin-releasing factor 839
Stress response,
met-enkephalin source, rats 381
oxytocin release, role of corticotrophin-releasing factor, rats 647
role of dopamine 733
Striatum,
neurons, dopamine/oestrogen effects on 825
***Styela plicata*,**
cerebral ganglion, glucagon-related peptides 641
Substance P,
levels, oestrus cycle effects on, rats 291
Supraoptic nucleus,
κ-opioid agonists effects on, *in vitro* 389
Suprachiasmatic nuclei,
lesions, effects on prolactin/progesterone secretion, pregnant/non-pregnant mink 583
Supraoptic nucleus,
neuroendocrine cells, voltage-clamp recordings, rat 267
oxytocin/sex steroids effects on, rats 225
vasopressin/oxytocin neurons, inward rectification, guinea-pigs 261
Sympathetic nervous system,
regulation of pineal gland electrical activity 493

Temperature,
effects on gonadotrophin-releasing hormone binding, pituitary, rats 509
Testes,
weight, prolactin effects on, doves 667
Testosterone,
interaction with photoperiod, regulation of pituitary hormones, hamsters 567
metabolism, regulation, quail 675
Third ventricle,
anteroventral, lesions, effects on cholecystokinin receptors, rats 323
Thyrotrophin,
pyridostigmine effects on 429
release, cysteamine/periventricular nucleus lesions effects on, rats 485
Thyrotrophin-releasing hormone,
regulation of G protein, pituitary, rat 593
Transgenic mice,
oxytocin gene expression 917
Tumours,
pituitary gland, prolactin release/phospholipid turnover, rats 833

Urotensin I,
characterization, *Hippoglossoides elassodon* 877
Uterus,
oestrogen binding, inhibition by progesterone, rats 517

Vasopressin,
angiotensin II effects on, medulla oblongata, rabbits 867
autoreceptors, immunostaining, man 659
distribution, hypothalamus, man 369
expression, cultured neurons, cAMP effects on 859
i.c. administration, cardiovascular effects 39
monoclonal antibodies, uptake, relationship-physiology, rats 355
neurons, supraoptic nucleus, inward rectification, guinea-pigs 261
nuclei, brain, oestrogen receptors, rats 209
receptors, brain, canary 653
release, osmotic stimulus, cats 201
release, positive feedback 461
release, regulation by atrial natriuretic peptide 903
release, regulation by norepinephrine 363
release, septum/hippocampus, rats 453
mRNA, coexpression with oxytocin mRNA 257
mRNA, regulation, pituitary, rats 329
sensitive neurons, hypothalamus, effects on flank-marking behaviour 123
sensitive neurons, hypothalamus, mapping 113
Voltage-clamp recordings,
neuroendocrine cells, supraoptic nucleus, rats 267
